

Terrance#23

SCOOBY-DOO and The Knight

There was a knight who was in the woods. He was making a sword for ten days and then he was finished. He stole some money from the bank. He did not want to spend it, or share it. Then he did it again. The knight stole money from people now. The knight was so rich now. The knight had four arms. Fred set a trap and it worked . The trap was a money box and inside was Bob Batten. When the knight rode away with the box, out jumped Mr. Batten. He put him in the castle dungeon. Then he learned a lesson not to steal money from Fred.
